

To whom it may concern

Letter of recommendation

It is with much pleasure that I write this letter of recommendation for student [REDACTED] [REDACTED] in support of her pursuits to study abroad at University of Sussex. I first met [REDACTED] when [REDACTED] started [REDACTED] bachelor's degree in Digital Design where I taught the course in 'Interaction- and Interface Design' and more recently through the course 'Design Project'. In both courses [REDACTED] demonstrated excellent academic skills and the ability to manage an iterative design process using the skills and knowledge acquired throughout [REDACTED] degree. [REDACTED] demonstrated very good teamwork skills while also being a curious, highly dedicated, and light-hearted person. For the final design expo, [REDACTED] convincingly demonstrated and reflected upon how user experience of an artefact does not only depend on concrete interaction but also the cultural, social, and technical context. [REDACTED] attention to detail, the thoroughness in [REDACTED] work and [REDACTED] engagement in the study environment provides a solid foundation for [REDACTED] studies of digital technology. As Digital Design at Aarhus University is a program characterised by a mainly English curriculum and several English-speaking lecturers, I am confident that [REDACTED] will be able to follow and participate in any courses [REDACTED] may take as well as integrate and socialise with other students. I highly recommend [REDACTED] as a student and I am confident that [REDACTED] will be a valuable addition to any study environment.

Kind regards

[REDACTED]
